Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of

information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 498–1210. Send written comments to CDC, Desk Officer, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, DC 20503. Written comments should be received within 30 days of this notice.

Proposed Project

National Hospital Discharge Survey—(OMB No. 0920–0212)—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC) proposed to conduct a special study to evaluate expanding pharmaceutical data in the National Health Care Survey. This study is a preliminary investigation of methodological procedures to collect information on drugs for inpatients as part of the National Hospital Discharge Survey (NHDS). The National Health Care Survey currently collects data on drugs prescribed during patient visits to physicians’ offices and to emergency and outpatient departments through the National Ambulatory Medical Care Survey and the National Hospital Ambulatory Medical Care Survey. The purpose of this special study is to conduct and evaluate a field test of preliminary data collection methods using medical records as the source for abstracting names of drugs administered to a sample of hospital inpatients. It is anticipated that the results of this

special study will provide essential information regarding: the amount of time and medical sophistication required for staff to find and abstract drug data in the medical record; the cost of collecting these data as part of the NHDS; potential problems to be anticipated in conducting a national survey which potentially requires the participation of a large number of hospitals; and, what the next steps should be to evaluate the possibility of adding drug data to the NHDS. The field test for this special study will include a sample of approximately 50 hospitals which are not currently participating in the NHDS. Data collection will include 20 discharges sampled from one month from each participating hospital. The data items to be abstracted are all of the NHDS items in addition to listing the narrative description of all drugs administered during the sampled inpatient stay. It is anticipated that only half of the hospitals which participate in the special study will conduct their own abstracting (“Primary procedure”) and that contractor staff will perform the abstracting (“Alternate procedure”) in the other 25 hospitals. The total annual burden for this data collection is 367 hours.

Form	Number of respondents	Number of responses/ respondent	Average burden/re- sponse (in hours)
Medical Record Abstract—Primary Procedure Hospital	25	20	30/60
Medical Record Abstract—Alternate Procedure Hospital	25	20	1/60
Induction Form	50	1	2
Transmittal Form	50	1	10/60

Dated: October 2, 2002.

Nancy E. Cheal,
Acting Associate Director for Policy, Planning and Evaluation, Centers for Disease Control and Prevention.

Cooperative Agreement for the Development and Support of Core Public Health Functions Related to Injury Prevention and Control; Notice of Award of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the award

of fiscal year (FY) 2002 funds for a cooperative agreement program for the Development and Support of Core Public Health Functions Related to Injury Prevention and Control.

The purpose of the program is to assist the State and Territorial Injury Prevention Directors’ Association (STIPDA) to determine and respond to the training, information, education, research, surveillance, program implementation, and evaluation needs required to build or expand injury prevention and control capacity at the State and territorial level. This program addresses the “Healthy People 2010”
